Home self-administered injectable drugs are covered only when dispensed by select participating pharmacies in the Specialty Pharmacy Network. Drugs from non-participating pharmacies are not covered except in emergency and urgent situations.

# Copayments and charges for these covered services are not included in the calculation of the member's medical calendar-year copayment maximum and continue to be the member's responsibility after the calendar-year copayment maximum is reached. Please refer to the *Evidence of Coverage*, and the Group Health Service Contract for exact terms and conditions of coverage.

Note: This plan's prescription drug coverage is on average equivalent to or better than the standard benefit set by the federal government for Medicare Part D (also called "creditable" coverage). Since this plan's prescription drug coverage is creditable, you do not have to enroll in Medicare Part D while you maintain this coverage; however, you should be aware that if you have a subsequent break in this coverage of 63 days or more before enrolling in Medicare Part D you could be subject to payment of higher Part D premiums.
